

IOWAccess Small Projects Fund Reimbursement and DHS Phonebook – Request for Hosting Funding

The Revision of the State phone and agency online directory is close to complete for the Department of Homeland Security and development continues on the other agencies. In addition, the revised Iowa.gov home page will make extensive use of this application. In order to support it, DAS-ITE is requesting hosting funding in the amount of \$1,500 for one year. In order to meet DHS deadline, two month's hosting has already been committed from the Small Projects Fund; upon IOWAccess funding approval, that two months cost will be returned to that Small Projects Fund.
